Average runtime of movies per movies shows some increase but stabilizing in last few years

If it's working fine, the avg run time should be maintained at 100 minutes as the trend indicates

Netflix has balance approach on adding the tv shows and movies on the platform. But in the last 2-3 years the TV shows are gaining traction

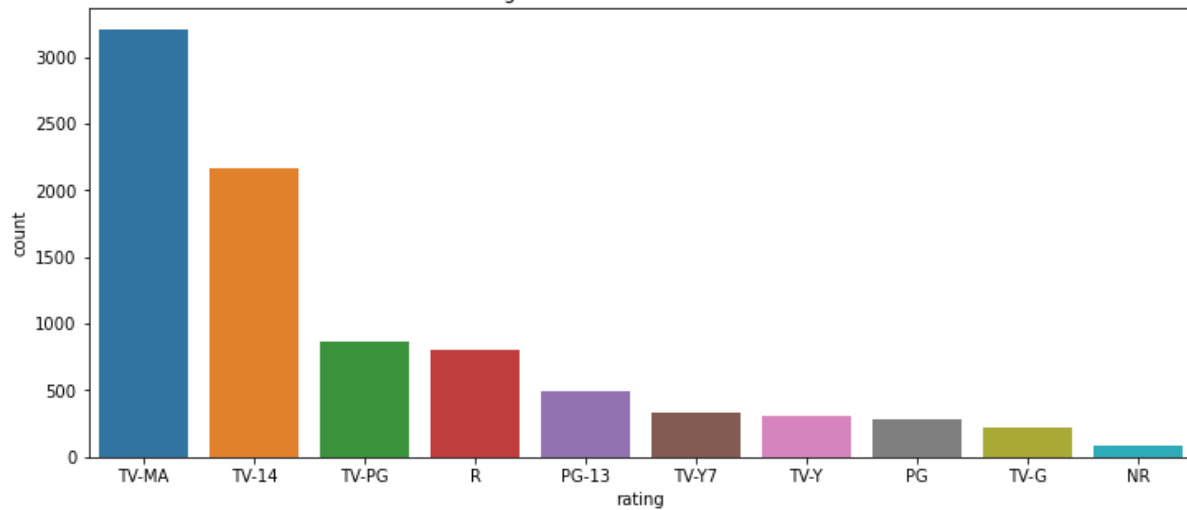

More no. of TV shows can be added while the maintaining the no. of Movies as well

**Most of the shows has TV-MA (Mature Audience) and TV-14 ratings**

**As the ratings suggest, more content in TV-MA rating can be added to target the mature audience**

Ratings of content on Netflix vs Count

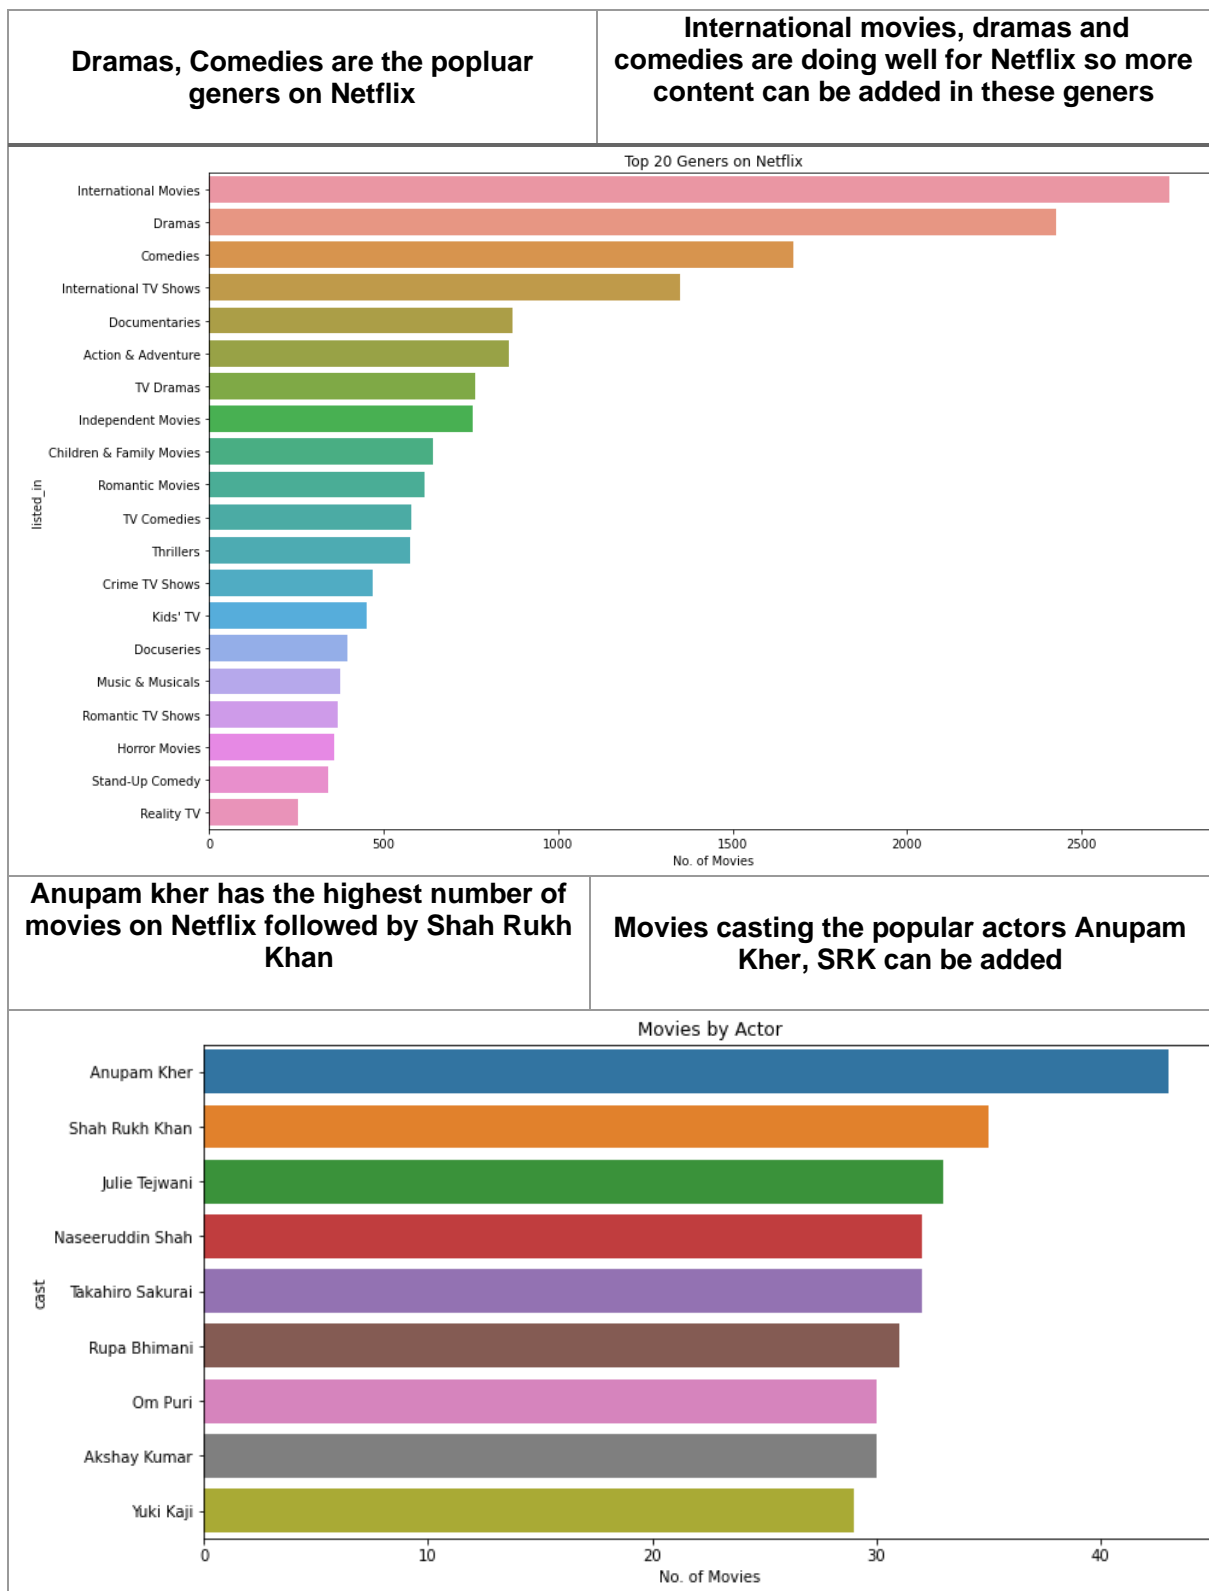

**The most popular director, actor pair are (Rajiv Chilaka, Julie Tejjwani) and (Rajiv Chilaka, Rajesh Keva)**

**As audience like these pairs, more content of these pairs can be added. And, it can also be seen that Rajiv Chilaka is the most popular director so more content directed by him can be added**

Actor - Director pairs

**United States is producing highest no. of movies in Netflix followed by India. But in TV shows, United Kingdom is ahead of India**

**We can see that emerging market like India is gaining the traction in movies but in it slightly lags in TV shows so more no of TV shows can be added in this market**
